CHANGES AND ADDITIONS
BULLETIN NO. 1077 (ISSUE 3)
PARTS - TABLE

This correction sheet covers parts ordering information for the Model 15 or 26 send-receiving printer metal table (XRT-115) having all the electrical service parts housed in a metal container on the underside of the table.

Also covered herein is parts ordering information for the 19 type set metal table (XRT-116) designed for use with multi-voltage, multi-frequency rectifiers.

Pages 1 and 2

XRT-115 is a metal table (black wrinkle), without the "Lord Mounting" features, designed to mount either a Model 15 or 26 send-receiving printer. This table is similar to the one illustrated on pages 1 and 2, but differs in that all the electrical service parts shown on the underside of the table are mounted in a metal container. This container, and all the parts mounted therein, are shown in the 105014 electrical service (Assem.) shown on page 3 of this correction sheet.

The XRT-115 table consists of one table, one 105014 electrical service (Assem.), one 91863 pad and four 91095 feet. For wiring data, see wiring diagram W.D.-2146.

Pages 11 and 12

XRT-116 is a metal table (black wrinkle) without the "Lord Mounting" features, designed to mount a 19 type set. This table is similar to the one illustrated on pages 11 and 12, plus the additional parts listed below:

(95005	Resistor (2500 ohms))		2
(92271	Screw)		2
A	(76099	Washer (Steel))	2
	(75750	Washer (Bakelite))	10
	(2191	Lock Washer)	2
	(105855	Terminal Strip)	2
B	(200-148	Spacer)	4
	(73235	Screw)	4
	(105205	Plug Mounting Bracket)	1
	(33-4	Screw)	4
	(7002	Washer)	4
	(2191	Lock Washer)	4
C	(105206	Plug - 4 Prong)	1
	(1176	Screw)	2
	(2191	Lock Washer)	2
	(105391	Knife Switch - 4 P.D.T.)	1

(80757	Screw)		2
C(2669	Lock Washer)	For 105391	2
(34-58	Nut)		2
(106067	Connector (with terminals)			2
(103287	Fusetron (1.25 amp.)			1
(103288	Fusetron (1.40 amp.)			1
D(105387	Cable			1
(105392	Cable			1
(105393	Cable			1

- (A) Parts in Group A are mounted behind the "line jack" mounting panel.
- (B) Parts in Group B are mounted on top of the three short terminal blocks.
- (C) Parts in Group C are mounted between the two long terminal blocks and the three lower receptacles.
- (D) For location of parts in Group D refer to wiring diagrams W.D.-2161 and W.D.-2162.

Page 13

Two guards have been added under the 77625 slip connection guard of the 84103 mounting plate (Assem.). These two guards may be ordered as 105187 Guard - left and 105188 guard - right.

120981 ELECTRICAL SERVICE ASSEMBLY

CHANGES IN TELETYPE
PART AND ASSEMBLY NUMBERS

In order to facilitate the use of automatic business machines in the conduct of its business, Teletype Corporation finds it necessary to eliminate all of its present part and assembly numbers containing dashes and/or letter prefixes. Such numbers have been replaced by others having 3 to 6 digits which may have a one-letter or a two-letter suffix.

The prefixes used with magnet, packing material, raw material such as wire in bulk, Teletype literature and wiring diagram numbers have been changed to suffixes, and in the case of bulletins and instruction manuals a suffix has been added to identify the items without reference to descriptions as shown in the following illustrations:

<u>Old Designation</u>	<u>New Designation</u>	<u>Description</u>
M121	121M	Magnet
PK10718	10718PK	Carton
RM31571	31571RM	Wire
121	121B	Bulletin
EE121	121EE	Correction Sheet
121	121MA	Instruction Manual
WD2186	2186WD	Wiring Diagram
S5037	5037S	Specification
S5333A	5333SA	Specification
S5333B	5333SB	Specification

All Teletype parts bulletins and price lists will eventually be changed to show the new as well as the old numbers for the convenience of Teletype Corporation customers.

*When an item is ordered under an old number, the new number will be substituted for the old one and the old number will be shown immediately after the description of the items on all shipping papers and invoices.

Attached are two conversion lists of the active numbers involved; one with the old numbers and descriptions arranged numerically and the other with the new numbers arranged numerically. It is to be noted that some of the new numbers have already been used in Teletype parts catalogs.

**Many numbers containing dashes cover parts considered obsolete and are not included in the attached lists. Occasionally one of these parts is reinstated, in which case the part will be shipped under the new number with the dash number shown immediately after the description. It is not intended to add such numbers to the correction sheet lists unless the part is to be commonly used.

*Indicates change
**Indicates addition
