

INSTRUCTIONS FOR INSTALLING THE 195271 MODIFICATION KIT  
TO PROVIDE A REPLACEMENT TAPE GUIDE FOR THE CANCELLED  
159953 TAPE GUIDE USED ON THE LRC200

1. GENERAL

a. The 195271 Modification Kit provides a replacement tape guide for the 159953 Tape Guide on LRC200 Covers when the 174457 Modification Kit is not desired. (The 174457 Modification Kit provides facilities for external manual tape feed-out for self-contained Model 28 Typing Reperforators and includes a replacement tape guide).

b. The 195271 Modification Kit consists of:

1	195181	Guide, Tape W/Adhesive
---	--------	------------------------

c. For parts referred to other than those listed above see Teletype Parts Bulletin 1167B.

2. INSTALLATION

a. Clean surface to which the 195181 Tape Guide is to adhere to.

b. Remove paper backing from adhesive on the 195181 Tape Guide.

c. Place the 195181 Tape Guide in the same position formerly occupied by the 159953 Guide, being careful not to allow the adhesive to come in contact with the cover until the guide is in proper position.

d. With the 195181 Guide in position, firmly press down on the guide to obtain a good bond.

3. ADJUSTMENTS AND LUBRICATION

a. The 195271 Modification Kit requires no adjustments or lubrication.

b. For adjustments and lubrication of related equipment refer to Teletype Bulletin 246B.
