

INSTRUCTIONS FOR INSTALLING THE 197751 MODIFICATION KIT
TO PROVIDE PAPER SUPPORT BRACKET FOR USE WITH PAPER OUT
ALARM ON MODEL 35 SPROCKET FEED TYPING UNIT (LP)

1. GENERAL

a. The 197751 Modification Kit prevents single ply fan folded forms with exceptionally sharp creases at the fold, from actuating the paper-out alarm switch inadvertently. The bracket provides a support for the form in the area immediately adjacent to the switch arm.

b. The 197751 Modification Kit consists of:

1	2191	Washer, Lock	1	156740	Screw
1	7002	Washer, Flat	1	197752	Bracket, Support

c. For parts order information, see Teletype Model 35 Parts Bulletin 1187B.

2. INSTALLATION (See Figure 1)

Install the 197752 Support Bracket on the left side frame (right side frame as viewed from rear of unit) with 156740 Screw, 2191 Lock Washer and 7002 Flat Washer.

3. ADJUSTMENTS AND LUBRICATION

a. Refer to sectionalized information for adjustments and lubrication procedure of related equipment.

b. Make the adjustment shown in Figure 1.
